

## A Rain Coat Sacrifice

The perfection of fabrics and the beauty and variety of patterns have brought the raincoat rapidly to the front in popular favor. It is not very long since the raincoat was tolerated merely because it shed water. Today it is esteemed one of the most serviceable, all-season top garments that a woman may have, and the variety and character of patterns are equal to the number and excellence of the recognized overcoat cloths. On

Monday, July 31

we shall place on sale at the amazingly low price of \$9.75 a limited number of LADIES' CRAVENETTED RAINCOATS, the price of which is ordinarily \$15.

These coats are in light and dark grey, tan and brown, and offer the fancy patterns which are most indifferent to wear and abuse. They are cut on ample patterns and give all the protection which women are likely to want when the weather is stormy, rainy or cold.

FIRST COME WILL BE FIRST SERVED.

N. S. SACHS' DRY GOODS CO. LTD., Cor Fort and Beretania Sts.

## REFORM SCHOOL FOR NON-LEPERS

USE OF THE INSTITUTION AT KAIHALAE IS SUGGESTED FOR THE NON-LEPROUS BOYS OF THE LEPER SETTLEMENT—SUPERINTENDENT GIBSON OF WAIALAE THINKS THE PLACE IS A GOOD ONE.

Superintendent Gibson of the Boys' Industrial School at Waialea has suggested the use of that institution as a home for the non-leprous boys of the Leper Settlement. In a letter to the acting governor the superintendent states the matter as follows:

"Hon. A. L. C. Atkinson, Acting Governor, Honolulu.

"Sir I have been thinking over the proposition of establishing a school for the non-leprous sons of leprous parents, for which an appropriation was made by the last legislature, and I don't see what is to prevent those boys from being sent here. It has been customary to send homeless boys here and there are several such here at present. There is not much odium attached to a boy from this school, especially among Hawaiians, and if those boys from Molokai came here they would lose the stigma that would cling to them as lepers if they were brought up in a separate school.

"I don't know how many of these boys there are, but if there are over thirty we would require another dormitory to accommodate them. The \$6,000 appropriated would be sufficient

for that and that is about all the extra expense necessary. We have the 'plant' and have made a start, so that fifty or sixty more boys would only necessitate additional room. The teachers and assistants we have now would be sufficient. I suppose, for the satisfaction of the parents of the boys now here, it would be well to make arrangements for frequent medical examinations of the new boys.

"It seems to me that this is the most feasible solution of the difficulty. Very respectfully, 'T. H. GIBSON.' Atkinson said this morning that he had not given the matter sufficient thought to form an opinion as to the plan suggested by Gibson, but he was enthusiastic in praise of the school. 'Mr. Gibson's suggestion is one to be considered,' he said. 'The school at Waialea is the most magnificent institution in the islands. Few people realize what splendid work it is doing. The boys are all happy and busy and are receiving the finest kind of training. The institution is nearly self-supporting and it is turning out fine, well-trained young men. It is a school to be proud of in every way.'

## ROSALIA BARETE CLEARS THE PRIESTS

A CURIOUS INCIDENT IN CONNECTION WITH THE BARETE ESTATE WHICH CLERK P. D. KELLET, JR. IS ACCUSED OF LOOTING—ALLEGATIONS IN A BILL DENIED BY THE WOMAN ON WHOSE BEHALF THEY WERE MADE.

There comes now a curious aftermath of the arrest of Circuit Court Clerk Kellett on the charge of having appropriated to his own use funds which belonged to the Barete Estate. It may or may not have a direct connection with Kellett's transactions but that is a matter which will transpire later.

July 15 last papers were filed by W. C. Achi, an attorney for Rosalia Barete, who is an inmate of the leper settlement at Molokai, charging that she had been defrauded by Father Clement, Father Wendelin and Antonio Lopez to deed certain property to Lopez. The property, which was left Rosalia Barete by her deceased father in Kalihii, on King street near Kamehameha IV road. The claim was that she had great faith in the two priests and signed the deed on their recommendation. The papers filed then asked that the deed to Lopez be set aside and cancelled and that the defendant be compelled to deliver her a proper deed.

Father Clement is particularly well known here and Father Wendelin who was at the settlement is also well known hence the public was loth to believe that they were concerned in any such transaction as was recited. Father Clement made no statement for publication at the time nor did he even go to the trouble of engaging counsel. He wrote to Father Maxime stating the charges and asking him to get the girl's statement.

This statement came back in the form of the following letter:

"Pauahi Home, July 30th, 1905. 'Father Clement. 'Aloha maika kama. 'I got your letter from Father Maxime and he told me what you had said to him—and what my sister Agnes and husband are doing—I know nothing about this—I did not consent to have Charles Aki as lawyer for me—all this they both are doing is very bad—I'll go there next week and I like you to go there to the receiving station. I don't like at all what my sister and husband are doing—they like me to give them all that I have—that is what they like—telling me to appoint Chas. Aki for my lawyer—Here is the paper they like me to sign—I did not sign. Our Superintendent J. McVeigh is sick, he is willing to help me for this business—let us wait until he is well. Aloha maika. 'Yours

"MISS ROSALIA BARETE." Still Father Clement said nothing but he waited until the girl Rosalia Barete could be brought over from the leper settlement to the detention station here. She is now here and to Father Clement she confirmed what she had written. She further says that Achi went to Father Wendelin at Kalaupapa with some notary public to ask the priest to use his influence in inducing the girl to sell her land. Father Wendelin refused and sent the two away.

She accuses her sister Agnes Soares and her husband Manuel Soares of trying to get her property from her and denies specifically that she ever appointed Achi to act for her.

and that they arrived safely at the junction of King and Alexander streets where they were compelled by the rules of the company to change cars. It is alleged further that the boy did what the boy met his death on the first change to the Waialea car, but that because of the car starting suddenly he is alleged that on that day the child fell from the Waialea car to the ground and his mother was riding on a Rapid and was run over and killed by a car Transit car, on the way to Waialea, of the King street line.

## Solace Broke Record For Wireless Signalling

NAVAL TRANSPORT SIGNALLED TO BARBER'S POINT STATION AT 5 O'CLOCK LAST NIGHT WHEN 160 MILES DISTANT—THIS IS BEST RECORD IN AMERICAN NAVY—BEATS PREVIOUS RECORD BY 20 MILES—VESSEL ARRIVED THIS MORNING.

A new record for wireless telegraph signalling was established by the transport Solace yesterday. She broke all of her previous records for long distance signalling. When 160 miles off Barber's Point, the vessel got in touch with the wireless station ashore and announced the approach of the naval vessel. The Solace stated the distance she then was from Oahu, and asked to have reported to Captain Lyon the commandant of the naval station, the fact that she was near Honolulu and also requested that he be apprised of the time that the vessel would go alongside the naval wharf on Wednesday morning.

## Honolulu Women Making An Original Expedition

PARTY OF FIVE WALKING AROUND HAWAII—HAVE BEEN TRAMPING OVER A MONTH AND ARE DELIGHTED WITH TRIP—FEAR OF WILD DOGS CAUSED THEM TO ABANDON THEIR WALK OVER SOME BAD LAVA BEDS IN KAU.

A very novel trip is now being made by a number of young women of Honolulu. They are walking around a large part of the island of Hawaii, and although they have been out over a month, they were, according to last reports, enthusiastic over their trip and expected to continue their pedestrian expeditions for some time. In the party are Mrs. Ashley, Mrs. Livingston, Miss Winne, Miss Huntington and Miss Hart. The majority of those in the party are members of the Punahou faculty.

The party walked over the Puna district last month covering about 300 miles. They went to the Volcano House and walked from that place down to Waiohinu, a distance of 50 miles in two stages. They left the Volcano House one day last week at 7 a. m. and reached Pahala at 9 p. m. of the same day, covering 30 miles of the worst possible kind of walking.

The crowd had planned to walk from Waiohinu to Kona across the lava beds, but they were dissuaded from making such a trip, as the wild dogs, are reported to be very ferocious in the desolate places over the lava flow, and it was thought that the women would expose themselves unnecessarily to danger if they ventured upon that expedition. The result was that they

gave up this trip and took the steamer Mauna Loa at Honouapou and went to Hookeena with the vessel. At Hookeena the trampers were entertained by Judge and Mrs. Kaal and other people. It was intended by the party to walk from Hookeena to Mahukona. They have acquaintances all along that route and will be entertained. They were entertained at Pahala by Chong, the Chinese merchant of that section.

Throughout the entire trip which is certainly a very unusual one for women to undertake, the party has met with the utmost courtesy and kindness. They have been well treated and were delighted with the expedition. The party are all dressed alike. They wear army cloth skirts, short of course, shirts and army felt hats. They carry their blankets across their shoulders and also carry canteens. As a rule, they have been able to arrange their trips so as to have no difficulty in securing accommodations overnight and to get dinner or breakfast. They stayed on the Mauna Loa this week, that they expected to be out some time longer before returning to Honolulu.

All of the members of the party appeared to be in the best of health and spirits and were loud in their recommendations of walking as a means of securing robust health.

## MANY PROTESTS

(Continued from page one.)

which it is proposed to have the saloons and the protest of registered voters of the precinct. Owing to the fact that some of the signers have their names on petitions both for and against the saloons, there was some difficulty in ascertaining whether a majority of voters had protested or not, but it appears from a careful count of the names that a clear majority of the voters of Waialea have signed a protest against the granting of any saloon license at all.

The first name on the property-owners' protest is that of the Waialea Agricultural Company, signed by Manager W. W. Goodale. Goodale has also signed the voters' protest. In the case of Oaiki, which is made to cover all the others, it is claimed by an expression in the protest against 'any license whatever' in Waialea district, there are 113 names of alleged voters signed. Comparison with the registration lists shows that 107 of them are registered, while the other 6 appear to be not on the last register. The total registration of the precinct is 201, so that a majority are on the protest. According to the law a license must be refused when a majority of the voters protest and then the matter is a subject for arbitration.

The matter is complicated, however, by a counter petition in the case of Leong Chee. The petition has 115 names. It states that some of those who signed it had already signed the protest, but that they did so without knowledge of its contents and wish to withdraw the protest and sign the petition.

In all the cases it is expected that there will have to be arbitrations. The Hawaiian church at Waialea has taken up the matter and is working against the applicants and Manager Goodale of Waialea Plantation is also very much interested. He has written a letter to Treasurer Campbell transmitting one of the protests, and stating that he regards it as important for the district that the applications should be denied. There is a prospect of a lively contest before the arbitrators.

At Laie, the Mormon church is out among the voters with a protest against J. D. Holt's application. The church has great influence in the district, and it is expected that this case also will have to go to a board of arbitrators.

Another protest has come from Kauai. A Japanese named Shirose has applied for a license at Anahola, and a protest purporting to be a majority protest has been received against the granting of the license.

## THE ZOO IN MINSTREL ARRAY.

Minstrels will hold forth in gala dress in the Zoo theater tonight when the curtains rises on a first part comprising a chorus of thirty male voices singing the late Coon songs, and interspersed with jokes, good solos and the like.

Then, there will be a second part composed of solo work, clever specialties, clog-dancing and quartette selections. The orchestra will be on deck to render selections, and all in all there will be a fine opportunity to spend a pleasant and enjoyable evening with the minstrels.

It's fine and cool out at the Zoo, and you can just wander out there and hear good instrumental and vocal selections, good chorus and quartette work, and be amused by the clever specialties and have a laugh with the rest. A good time is in store, so don't let yourself forget about it.

Fine Job Printing, Star Office.

## ALAKEA STREET SLIP PROGRESSES

A BIG BLAST THIS MORNING SHAKES THE CITY AND LOOSENS MANY TONS OF ROCK.

At half-past nine this morning downtown Honolulu was startled by the sound of an explosion which shook the tall buildings and made most people wonder what had happened. No alarm of any kind followed however and the incident passed out of mind. Down at the Alakea street slip there was more interest for the explosion had taken place there, no less than 150 pounds of giant powder having been let loose in the blast. A huge mass of water was raised but the wave quickly subsided and the big dredger Governor went to work scooping out the shattered coral. From the debris that was brought up it was quickly seen that the blast had been successful for the coral was broken up into easy size for handling, and only in a few cases were there lumps too big for the bucket.

Yesterday the rock came up in lumps that in some cases were enormous, and one huge piece now on view beside the slip must weigh at least fifteen tons. The dredger is not supposed to lift more than four and a half tons with the bucket now in use.

The night shift has again been resumed and the new man at the lever, the responsible position, is Arthur McDuffie, formerly of the detective department. McDuffie is an old dredger hand, though he has never worked so large a machine as the Governor before.

## MOSQUITOES BY THE THOUSAND

A CATCH BASIN IN THE CENTER OF THE CITY WHICH WAS BREEDING MANY PESTS.

"They wonder why mosquitoes are on the increase in Honolulu," remarked a citizen this morning as he was waiting at the corner of King and Fort streets for his car, "but it seems to me that there need be no cause for wonder after a look at that catch basin."

He indicated the basin at the Ewa-makai corner of the street and it was as he intimated. The surface of the filthy water was a perfect mass of wrigglers and as they were just at the ripening stage there were brand new mosquitoes coming into active life every minute. Under the old system of mosquito warfare the catch basins were watched and attended to regularly, but with lessened fund at the disposal of the pest fighters all of the places cannot properly be covered. Eternal vigilance is the price of comfort where mosquitoes are concerned.

## TRENT HOLDS UP A WARRANT

(Continued from page one.)

ing," said the urbane Treasurer. He may not have used these exact words, but the impression that Captain Johnson correctly received was that he would not pay the warrant.

Captain Johnson executed a retreat that would have done credit to Kurapatkin.

"The warrant was a blanket one issued for the pay of the whole of the men, in favor of Superintendent Johnson," the Treasurer explained to the Star, "and I do not think that under the authority of the County Act I would have any right to cash it. I have reported my action to Chairman Smith of the Board of Supervisors."

Chairman Smith promptly turned over the communication to County Attorney Douthitt for his advice and there, at this writing, the matter rests. What the County Attorney's opinion may be is of course one of those all-absorbing mysteries, but the layman may be interested in noting the sections of the County Act which bear on the point at issue.

Section 75 of that measure says: The Auditor shall issue warrants on the County Treasurer in favor of persons entitled thereto in payment of claims and demands chargeable against the County which have been legally examined, allowed, and ordered paid by the Board of Supervisors."

Section 97 says, among other things, that the Treasurer shall "disburse County moneys only on County warrants issued by the County Auditor," and so on and in a later paragraph. "When a warrant is presented to the Treasurer for payment, if there is money in the treasury for that purpose he shall pay the same and write or stamp on the face thereof 'Paid,' the date of payment and sign his name thereto."

Unless there is something deep and dark concealed behind all this it would seem that the Treasurer is fully protected by the warrant issued by the Auditor under authority of the Board of Supervisors and that the Treasurer has nothing more to do than to act as an automaton and pay out when he is told, a sort of a human cash register, in fact.

The question of the giving of a blanket warrant to Captain Johnson is explained on grounds of expediency. The laborers in the Garbage department being hired by the day, the issuance of separate warrants would cause needless work.

## DEPARTING.

Wednesday, August 2. Arr. bark Mary L. Cushing, Balch, for Eleale at 11:30 a. m. from anchorage off port.

## WHY NOT RENT A

## SAFE DEPOSIT BOX

in a modern steel vault and feel that your valuables are secure?
